About the Conference

The *National Workshop and Conference in Mathematics Honoring Srinivasa Ramanujan* is being organized to celebrate the remarkable contributions of Srinivasa Ramanujan to mathematics and to promote academic interaction among students, researchers, and faculty members from diverse institutions. The event aims to provide a platform for exchanging ideas and fostering collaboration across different areas of mathematics. Through invited lectures, research presentations, and discussions, participants will have the opportunity to engage with contemporary developments in mathematical sciences. Special lectures on topics including Ramanujan's mathematics, cryptography, and other emerging areas will be delivered by distinguished speakers. The conference particularly encourages the participation of undergraduate and postgraduate students, offering them exposure to current research and opportunities for interaction with experts in the field. Certificates will be issued to registered participants for academic and professional purposes.
